

DIOGENES LUCAS

Product & Delivery Leader · AI Adoption & Digital Transformation

São Paulo, Brazil | +55 11 99027-4999 (WhatsApp) | diogeneslucas01@gmail.com
linkedin.com/in/diogenes-lucas | cv.becomehub.com.br

PROFESSIONAL SUMMARY

Product and Delivery leader specializing in AI adoption, automation and digital transformation. Currently part of Maersk's global innovation team, delivering measurable operational impact through Generative AI, AI-assisted workflows and process redesign across the software development lifecycle. Self-learned AI practitioner who applies best practices (PRD, Spec-Driven Development) end-to-end as Product Owner, hands-on user and builder, including founding the BecomeHub automation SaaS. Strong in OKRs/KPIs, stakeholder and change management, and agile delivery. Advanced English.

CORE COMPETENCIES

AI Adoption & Enablement • Generative AI / LLMs • Product Management (OKRs, KPIs, Roadmap) • Agile Delivery (Scrum, Kanban, SDLC) • Stakeholder & Change Management • Process Automation (n8n, low-code/no-code) • Digital Transformation

PROFESSIONAL EXPERIENCE

Maersk · Product Owner — Innovation & Digital Transformation

2022 – Present · Global innovation team

- Reduced support SLA from 4h to 2h (~50%) through workflow redesign, automation and intelligent routing.
- Led the implementation and evolution of an AI-powered chatbot supporting ~60 internal users and 2,000+ customer interactions/week.
- Ran As-Is / To-Be process assessments to identify automation, simplification and business-value opportunities.
- Delivered automation and process improvements generating savings of 20–80h/month across multiple business areas.
- Defined product strategy, roadmap and priorities with business stakeholders and engineering teams; presented KPIs and business cases to senior leadership.
- Drove AI enablement, documentation and knowledge transfer. Tools: ChatGPT, Copilot, Power Automate, Movidesk, n8n, low-code/no-code.

BecomeHub · Founder & CEO

Jan 2026 – Present · AI automation company

- Founded and operates an AI-powered affiliate automation service: automated product promotion, AI content generation and WhatsApp-based distribution with a recurring subscription model.
- Architected the full solution: Generative AI (OpenAI, Claude, Gemini), workflow automation (n8n), data infrastructure (Supabase) and WhatsApp distribution.
- Sole founder — product strategy, pricing and go-to-market.

Tik Tec · Founder

2020 – 2025 · E-commerce & Import

- Founded and operated a product import and e-commerce business for 5 years: full P&L, international sourcing, proprietary brand development and marketplace sales strategy.

SKY Brasil · Product Owner — Asset Recovery Specialist

2018 – 2020 · Asset recovery & risk reduction

- Contributed to a R\$ 32M EBITDA increase through systemic and process improvements.
- Integrated Finance, IT, Fraud, Legal and Logistics; managed backlog, epics and prioritization, running agile ceremonies.
- Led agile (Scrum/Kanban) rollout and training, and data modeling for analytics (Data Lake, Oracle, SAS).

KEY ACHIEVEMENTS

SLA –50% (4h→2h) • EBITDA +R\$ 32M • 2,000+ customer interactions/week • 80h/month operational savings • 10+ years of experience.

SKILLS & TOOLS

Generative AI (OpenAI, Claude, Gemini), n8n, Power Automate, Supabase, Movidesk, Jira, Scrum, Kanban, low-code/no-code, AI media generation, PRD, Spec-Driven Development.
